and Motion Control Professionals*

# AUSTRALIAN FLUID POWER SOCIETY (Inc.)

## NOTICE OF TECHNICAL EVENING: Going Off-Line: Something You Should Seriously Consider

The off-line filtering of fluids is very effective in removing particulate and moisture from the fluids if the appropriate filter elements and systems are used. **Steve Wells**, hydraulics division territory manager for W.A. based Mining & Hydraulic Supplies will be our guest speaker. Steve has extensive experience in this specialised area and will provide many interesting and important facts on fluid filtration which is so critical to the longevity of fluid power systems and precision machinery. **Ian MacDonald**, Principal Lecturer at South Metropolitan TAFE will chair the evening.

**Time:** 5:30pm registration, 6-7pm presentation, 7-8:30pm networking  
**When:** Wednesday, 20th November 2019  
**Where:** TAFE, Room B202, 140 Royal Street, East Perth, WA  
**Cost:** Early bird \$5 member/\$15 non-member until 13 November,  
 \$10 member / \$20 non-member. Extra \$5 if paying at the door.

**Register Now! Registration is important for attendance:**
